orders shipped by parcel post after July 15th. Please give date desired. No C. O. D. or Canadian orders.

Return postage guaranteed.

Library, U. S. Dept. of Agriculture, WASHINGTON 25, D. G. Dear customer:

Most of you who receive this list have purchased iris from us in the past. We wish to thank you for the business and hope you were pleased with the stock.

We make no apologies because this is a small price list and not a fancy catalogue. We do not attempt to grow a long list of iris. We do try and send out good stock and make every effort to have nothing but the choicest varieties We discard all kinds we consider inferior or outclassed by newer varieties regardless of price.

We believe prices in this list are as low or lower than you will find in most catalogues; however, we wish to give you a better bargain. On orders of \$5.00 or over you may select an extra valued at 10% of the order. On orders of \$10.00 or over you may select as extra values to 20% of

the order.

ON THE HOUSE-Out here "Where the west begins" we have many very lovely wild flowers. Would you like to grow some of them? If your order amounts to \$5.00, just ask us and we will send you a package or two of seed FREE.

WHEN TO PLANT IRIS

If planted in August they should bloom next spring. September is good and some flowers should bring. October is risky but not too late:

We hope you won't wait for so late a date.

After this you really are taking a chance,

Especially up north where snow flakes dance.

Better cover them over with evergreen boughs,

Or old man winter will rob you of flowers.

This good advice we hope you will heed,

And rush your order with the greatest of speed.
